

Bloodcurse

Psyche

In this world that time forgot
I am lost again
I lie awake somewhere alone
Forever in a dream

And the feeling in my blood
I can never let it out
This heart of darkness
This night of pain
It all becomes so far away

In this space when I have gone
You will be found again
And the ties that bind me here
Never let us go

And the danger in my blood
Is this who I am?
This heart of darkness
This night of pain
I can't make it go away

And the feeling in my blood
I can never let it out
This heart of darkness
This night of pain
It all becomes so far away
