

Buried Alive

Psyche

I am buried alive
Lying within this grave
Night falls on every embrace

Burning for one more kiss
Take a taste of this
All that's left to give

Never had a reason to go
Buried alive

You had no reason to go
You had no reason to go

Never find a resting place
Hold my breath until next time
Next time

I am lying upon my grave
When night falls

Burning for one more kiss
Take another taste of this
All that's left to give
Left to give

My funeral
Until the next time
Until the next time

Holding my breath
Buried alive
Alive!
