

Destiny

Psyche

Awake to my soul
But not this life
Promise in my sleep tonight
A question to ask
Is my impatience
An envious child in the dark

When memories call
Am I losing my way?
Darkness falls
Will my destiny change?

A moment in time
Beyond the stars
Beauty is gone to the twilight
Always a challenge to give you strength
And in this dream you're not alone
Leave the night behind me
Only love can change these hands
