

Dreaming My World

Psyche

I was trying for such a long time
Now we're falling into one another's arms
It all seemed so simple, but it's quite unknown
How we got together
and the way we've grown

Now I'm feeling so sure
Never thought a love could be like you
And if I gave my heart
Could it be I'm dreaming my world with you

The time it flows now quickly
It's way in my heart
Every moment I want to see you
You know I'm there
On the rainy days when we're at home
There'll be no more sorrows when I'm alone

Now I'm feeling so sure
Never thought a love could be like you
And if I gave my heart
Could it be I'm dreaming my world with you

When I'm far away
It always seems so cruel
All the voices calling me
When I only wish it was you
I only wish it was you

Now I'm feeling so sure
Never thought a love could be like you
And if I gave my heart
Could it be I'm dreaming my world with you

And if I gave my heart
Could it be I'm dreaming my world with you
Dreaming my world
