

## Fallen Star

Psyche

Now you're standing in the dark again  
With your lonely heart  
Everything's been torn apart and broken  
Without a tear

Always forgetting  
Who you are  
And where you've been  
Stars are born to be broken  
Thrown away in time  
Broken  
Thrown away

Time moves so slow again  
And here the lines are drawn  
All the gates have been shut down  
You know the reason why  
When the hearts are offered  
You'll shoot them down  
From the sky  
Shot down  
In time

The lights are gone forever  
The lights are gone forever

Who's going to save this fallen star?

You'll never see my eyes again  
You'll never look into my eyes again
