

Imaginary Life

Psyche

I've seen it falling apart
I've been a figure out of a time
A face in the distance
And the words that never rhyme
Whenever I'm in a nightmare
Or looking out the window
There's a time I think it's a dream
Nothing that I recognize

Imaginary life
Hanging on like a ghost
Maybe I didn't exist
But I know I've been here before

Imaginary life
Hanging on like a ghost
Maybe I didn't exist
But I'm still wanting more

I thought I somehow escaped
Not sure how to be alive
Been to secret places
Wandered on the streets at night
The moon looked down on Paris
Seen the people come and go
In my mind it's still a dream
Maybe you will never know

Imaginary life
Hanging on like a ghost
Maybe I didn't exist
But I know I've been here before

Imaginary life
Hanging on like a ghost
Maybe I didn't exist
But I'm still wanting more
