Make No Mistake

Psyche

Got to drop this pressure
Get on the right train
Forget the payback system
That ain´t no way to gain
Feeling out of sorts
Don´t want to let it end
I feel like I´m overloading
Got me down on my knees
I want to pull the trigger
But I can´t find the release

The insomniacs are out tonight
Tearing up the floor
You´d better stay out of sight
When they´re knocking on your door
Look around the corner
They´re rotten to the core

Waiting in the dark
Nowhere to hide
Try to hold your hands
The fear at its side
Feel it coming your way now
Riding in the light
Ain´t no escape
