

Screamin' Machine

Psyche

Take you down the rocky road
All the way to hell
C'mon let's go for a ride
I'm an easy one to handle

Green eyes on the dashboard
Watching you from every angle
C'mon let's go for a ride
I'm an easy one to handle

My mechanical dream is a screamin' machine
Corpse riding in the backseat

You've got the keys to my heart
My motor runs on your soul

My mechanical dream is a screamin' machine

Don't stand in my way now
I'll wipe you right out of the road!
