

Trouble in Mind

Psyche

Come into these arms of mine
Hold me in this far off place
We two together in security
Passion for your grace

Trouble in mind
Leading me far away
Trouble in mind
Until the light of day

In this foreign land
Trying to find the light
But this secret life won't let us go
Never let us go

Take me into this foreign land
Try to find the secret life

Trouble in mind
Leading me far away
Trouble in mind
Until the light of day
