

# Unbreakable

Psyche

This desperation is growing inside  
I know I can't help what I've heard  
There's sign over my grave  
Never understand a word

It could be you  
Up against the wall  
Know you're not unbreakable  
Say goodbye tomorrow

These are the chains holding me back  
The sound is ringing from satellites  
It's just a pressure in my heart  
Sleeping on unknown floors  
No time to reconcile  
Going to have to follow you down

Follow you down

It just keeps on happening

It could be you  
Up against the wall  
Know you're not unbreakable  
Say goodbye tomorrow
