

# **Wrench**

**Psyche**

I'm learning what I like about myself  
By knowing what I hate about you  
You're on the one up  
I'm on the down  
But what makes you so sure?  
What makes you so sure?  
There's a wrench in your plans  
There always will be  
Until you can stomp on  
Everyone like me

The bible tells me what's right or wrong  
The government tells me what's right or wrong  
My mind tells me  
What's right or wrong

But you tell me my mind is wrong  
My mind is wrong

Wrench in your plans
