

# Yearning

Psyche

Watching you closely  
Only your naked skin  
Every movement  
Pulling me in

Could you ever hold me this way?  
Will I ever feel safe again?

Desire in a single heartbeat  
Every breath a sacrifice  
Nothing will stop the yearning  
Everytime you look away  
The distance will kill me  
Every moment I give in

Could you ever hold me this way?  
Will I ever feel safe again?

I'm still yearning  
Desire in every heartbeat  
Every breath a sacrifice

Could you ever hold me this way?  
Will I ever feel safe again?

The image repeats, the scenery changes  
The scenery changes the image remains the same  
To die with you now
