

ENDLESS AGONAL DEVOTION

PSYCHO-FRAME

Entropic decay
Slowly fade to black

My altruistic violent display
Purge this fortress
Contamination courses through
A temple lined with silver and iron plated
Deformations
Calvaria pinned with fucking
Dead sensations
Expel the toxins, brace for Hell

Carve out the flesh in my hands
Born from cancer
Expel the toxic sequence
Reformed a benevolent shape
Designed to exterminate
Martyr my own desire
Dissecting the need to sedate my mind
My own salvation denied

You bare the mark of true oblivion scars
Suffering inside your skin
Always a victim of exploitation
Don't you feel so weak inside?
Strings pull and tear your pride
Kindred shame embeds endless enslavement

What exactly do you think you need?
Fucking pathetic, you'll never get it
A mausoleum filled with your friends buried
Fucking disgrace, a hollow grave

A force of change, inflict my will on this delusional world
My own clarity is consistent with removing all of your heads
Fucked with the jagged side of a bottle
Face is remodeled, exposing you
Caught in the throws of a chemical rhythm
Denying your symptoms, you'll never break through
Fuck you

An ultimate violent display
Purge this fortress
Contamination courses through
A temple lined with silver and iron plated
Deformations
Calvaria pinned with fucking dead sensations
Expel the toxins, brace for Hell

Heretic
I'll pound in the nail, render your flesh impure
Dig your own grave
Fresh soil and blood obscure
Counting every breath
Remember who you are
You will never be like me
Get fucked

You couldn't pry these convictions from my cold, dead hands
Blood and bile, a downward spiral
Fuck your perception, never understand
Repent, repent

Defile your worthless body
Cry while your bones decay
Divide your mentality
Accept your empty grave
Defile your worthless body
Cry while your bones decay
Divide your mentality
Your soul is a fucking disgrace
