

# NEURO++TERROR

## PSYCHO-FRAME

Neuroterror

Viral encrypted rat, payload of destruction  
Install and reformat, virtual castration  
Malware eats your pathetic fucking mind  
Malicious apathy trying to take what's mine  
Visions of unending, gouge out your eyes  
Asphyxiating on your greed, a parasite embodied  
You do not understand  
I will kill you  
Brute force a gun to your head and watch you OD on lead

I will deny you of your life  
Oh  
Administer a dose of ruination, take a fucking look at yourself  
Vital component of Hell  
Inject gasoline into my bloodstream  
In a bipedal death machine  
We're drifting on your village  
We're laughing while you hemorrhage  
To show you true pain is my fucking privilege

Whoa, You're fucked

So what?  
Are you scared or impaired?  
Are you reeling from the bloodlust?  
Have you fucking had enough?

Dismember  
Visions of unending  
Gouge out your eyes  
Asphyxiating on your greed, a parasite embodied  
You do not understand  
I will kill you  
A jagged shard of reflection will carve out your skin  
Excise the fucking soul from your body  
Erase yourself and every copy  
Push out your eyes from the inside  
Exploit my apathy  
Forgiveness denied

Neuroterror  
Motherfucker  
Searching for a pity chord to be struck  
As if you you ever gave a fuck

Viral encrypted rat, payload of destruction  
Install and reformat, virtual castration  
Malware eats your pathetic fucking mind  
Malicious apathy trying to take what's mine

Premeditated violent fixation  
Blood thickens as your limbs turn blue  
I will terrify you

Hack and pry on other's weakness

I'll be hacking you to fucking pieces

Pushing out your eyes from the inside of your skull  
Not a fucking soul will be attending your funeral  
Pushing out your eyes from the inside of your skull  
Not a fucking soul will be attending your funeral
