

Another Feeling

Psychopunch

Sunday and I'm feeling kind of bored
Take me to a doctor - now
tell me that I'm cured
All I ever wanted - was all I ever had
Now it makes me wonder - was it good or was it bad

Will you ever feel the same as me

Baby - I hear you knocking at my door
Say you want to thrill me
- Don't you know it's half past four

Will you always feel the same when there is no one left to blame

Got another feeling - I got another feeling - gonna get another feeling
And it's just like you
Got another feeling - I got another feeling - gonna get another feeling
And then just like you
I don't know what to do

Crazy - well I know you can't pretend
Poor little rich girl - got no money left to spend
All she ever wanted (just like you) - was all she ever had
And it makes her wonder - was it good or was it bad

Will you always feel the same when there is no one left to blame

Got another feeling - I got another feeling - gonna get another feeling
And it's just like you
Got another feeling - I got another feeling - gonna get another feeling
And then just like you
I don't know what to do

Solo

Got another feeling - I got another feeling - gonna get another feeling
And it's just like you
Got another feeling - I got another feeling - gonna get another feeling
And then just like you
I don't know what to do
