You got a crush little honey - it's gonna take some time

Before you get to my money and the scene of the crime
Another statement of the year

I think it's time to meet - the one you fear

Waiting here patiently - In this world of make believe
I shouldn't really care at all - Enuff's enuff I think
I heard

it all

Lucky bloody you my friend - You have it all but I am
heaven
sent

Got cash - I got cash enough - I got cash enough to sin
But I ain't got enough to win

You got a crush little honey - it's gonna take some time

Before you get to my money and the scene of the crime

I think it's time to meet - the one you fear

Late night bars and TV stars - Little wannabe in your
daddys

car

They give you shelter from the storm - Don't f**king
move you
have just been warned

Got cash - I got cash enough - I got cash enough to sin
But I ain't got enough to win

You got a crush little honey - it's gonna take some time

Before you get to my money and the scene of the crime
Another statement of the year
