

# Misunderstood

Psychopunch

Something is wrong - nothing feels right - thinking like that -  
it's driving me crazy Cause something you said - stuck in my head -  
Is this the end - I Promise my baby you said

Nothing last forever and will you feel the same

No more white lies - no more goodbyes - you asked me to stay -  
I thought you were running away from it all - you stumble you fall -  
will I be the one - to be there and catch your fall

Nothing last forever - and will you feel the same - when I say

I know I know it's mis misunderstood I know it's mis misunderstood

Maybe I'm right - Maybe you're wrong - I can't decide - it's driving me crazy  
So who flipped the coin - who rolled the dice -  
Hallo & goodbye - I promise my baby you said

Nothing last forever - and will you feel the same - when I say

I know I know it's mis misunderstood I know it's mis misunderstood

I want it - do you want it to I need it - you need it to

Solo

Nothing last forever - but will you feel the same - when I say

I know I know it's mis misunderstood I know it's mis misunderstood  
I know it's mis misunderstood I know it's mis misunderstood  
I know it's mis misunderstood
