

## Keys

Psychostick

Where did I put my keys? Oh no  
I really need to leave I'm late  
They should be right here but they're not  
I've looked everywhere but they are gone

OH! There they are, silly me! That's right  
They were in the pants I wore last night  
I should not overreact like that  
Now where did I put my wallet at?

Ah, there it is
