

You're an orange!  
You're round and juicy and sweet  
You're full of vitamin C.

Here in my hand sits a lovely orange and  
it's round and I think  
it has a really yummy taste and  
it's skin has pores and  
it's juice is sweet and  
it peels and  
I gotta say I think it's kinda neat

Sweet oranges!  
You're filled with generous amounts  
of supplements like natural folate,  
thiamin and magnesium  
That's better than the content  
that is found within your standard apple,  
passion fruit, honeydew or plum.

Have you had your V8 today?  
NO WAY!  
You're just drinking a pizza

Tomatoes really are fruit

Here in my hand sits a lovely orange and  
it's orange and  
I think it makes a really handy snack and  
it comes with seeds or  
it comes without take a bite,  
get a seed, and you'll wanna spit it out  
You are in genus citrus and  
you come from trees that have white flowers and  
sometimes reach fifty feet in height  
Your pulp has tightly packed membranous  
juice cells packed into a wedge that  
tastes real good when I take a bite
