Public Enemy

This song is sick  
Where the people are sick  
Man this air is thick  
The world feels sick  
Economy's flipped stocks done took a dip  
CEO chaos now everybody sick

AI running shit human beings kicked  
Outta their jobs now you really sick  
Politicians talking with that lying trick  
Promises promises but none that stick

Dreams dissolving like a candle wick  
No problem solvin the people tricked  
In a world gone down with leaders sick  
Lost in the shot clock that tick tick tick

No dancin on the edge now isn't that sick  
Voices lost in the noises  
Y'all trying to pick  
Truth in the shadows now ain't that sick  
2026 the world going sick

Society spinning, got cold like a brick  
Walls going up, yet crumbling quick  
The voices are silent, nothing to click  
2026 it's all looking sick  
Society spinning

This song is sick  
The world feels sick  
Temperature rising climate thick  
Weather patterns changing got y'all sick

Natures furious can't duck that shit  
Mama earths response gots y'all sick  
Eyes on screens vision got sick  
Lost in the media your minds done slipped

Communication dead emoji's picked  
Feelings numbed out, emotionally sick  
Truth buried deep now ain't that sick  
You in love with a bot and mad at it

Hours of chaos that love is a trick  
They scared of aging no magic fix  
Technology chains y'all thought y'all picked  
The future is locked ain't that a bitch

Sick sick sick sick sick sick sick sick...

Society spinning, got cold like a brick  
Walls going up, yet crumbling quick  
The Voices are silent, nothing to click  
2026 it's all looking sick  
Society spinning

Society spinning, got cold like a brick  
Walls going up, yet crumbling quick  
Voices silent

This track is sick  
Heart attack sick  
Broke like a stroke  
Blood pressure sick  
No joke Clock running out no flavor switch  
They all scared of aging no magic fix  
Eyes are glazed  
Hypnotic flick  
Voices screaming  
They just a click  
Disconnected heads  
Connections sick  
Identified lost  
Society sick  
Oceans rise see that oil slick  
Clock running out no flavor switch

Society spinning, got cold like a brick  
Walls going up, yet crumbling quick  
Voices silent, nothing to click  
2026 it's all looking sick  
Society spinning  
Society spinning, got cold like a brick  
Walls going up, yet crumbling quick  
The voices are silent...

Sick sick sick sick sick sick sick sick...
