Public Enemy

Toxic

Can't sing a song to save your life  
But can you sing a song to save a life  
Can a song save the world in this time of 45  
45 beyond askin'  
Can hip hop survive?  
Over a million rappers spittin' now  
What we the people be gettin'  
Forgettin' armaggedon  
Look out love is the message you can bet on  
Can culture save humanity when the name of the game  
Is narcissism, yo how can musicians get paid?  
Curator, caretaker, this creator  
Servicing purpose to other creators  
Rhymers and beat makers  
Blessed by the internet  
So I'mma start this war of art  
Before they rip this world apart  
Toxic

Toxic, see em  
Sell it and box it  
Savage, they  
Say we can't stop it  
Flav, PE, rock it  
Antetokounmpo  
No, Mutombo I blocks it

Toxic, see em  
Sell it and box it  
Savage, they  
Say we can't stop it  
Flav, PE, rock it  
Antetokounmpo  
No, Mutombo I blocks it

Looks like 45 done lied again  
Grabbin' planets, territories  
Not to mention women  
Those who voted this POTUS  
Killin' kin for the win  
Citizens sufferin'  
While he be ballin'  
If a mule die, they used to say  
Buy another one  
If a nigga die, they used to say  
Try another one  
Fifty years we were broke, not broken  
Take me to your leader  
Even aliens spoke it  
Every treaty signed  
Their fuckery broke it  
Wonder why only a few of us  
Thrive as their tokens  
Toke this toke that  
No joke cause I wrote it

The only thing I hit is the stage, and I smoke it

Yo that

That shit sounded good on the record, what you just did, ahah

Toxic, see em

Sell it and box it

Savage, they

Say we can't stop it

Flav, PE, rock it

Antetokounmpo

No, Mutombo I blocks it

Toxic, see em

Sell it and box it

Savage, they

Say we can't stop it

Flav, PE, rock it

Antetokounmpo

No, Mutombo I blocks it

Hindsight 57

So I'm stayin' in my lane

As the young think in hell

And the old prey to pain

This shit is classic like the resurgence

Of the dope on plastic

Vinyl bats backin' the tracks

The millennium's drastic

Synthetic bullshit smokin' up the hood

Bear witness cause y'all know the government's up to no good

You can't drift away from the problems of today

If you're grown 21 and over, tell me where the hell you goin'

Suicidal with an open Bible

Lockdown friendly fire

Or HBO, Home Boys Only, I really never really dug the Wire

They do no hirin'

He keep on firin'

We keep dyin'

The aftermath

Do the math

Toxic!
