

## Butterface

## Puddle of Mudd

Went to the country bar Saturday night  
Throwing back some beers, I was feeling just fine  
Stepped on the dance floor, I was cold cuttin' the rug  
That's when I saw her body from across the room

We started singing and dancing to her favorite tune  
I grabbed her little hand and we left the saloon  
We went back to my house and started fooling around  
I rolled her over baby  
I was looking at everything

Everything butterface, everything butterface  
We were rompin' and a rollin' 'til the break of dawn  
Everything butterface

Baby likes to get freakin' crazy, crazy  
Baby likes to get really wild, wild  
She's never trying to change me, change me  
But she'll rock the house all-night long

So we go back to the saloon  
We dance all night to some good tunes  
Throw back some shots, go back to the room  
Fooling around, but I still find myself just looking at

Everything butterface, everything butterface  
We rompin' and a rollin' 'til the break of dawn  
Everything butterface  
Everything butterface

I took her hand, went back to my room  
Shot her a smile, her eyes were so bloomed  
Staring at her, she said I'll tell you the truth  
This whole damn night, I've been looking at everything  
Everything but your face, everything but your face  
We were screaming and moaning 'til the break of dawn

Now I can't stop myself from looking at, looking at you yeah  
Looking at you yeah  
You're so beautiful, you're so beautiful  
Now I can't stop myself from looking at you

Looking at you yeah  
Looking at you, baby
