Can you feel me baby? I been away a long time

Is it still me baby? The one on your mind
Can we creep when everybody sleepin and find
ourselves 'tween satin sheets intertwined
Can I touch you baby? Is that aight witchu?
Can I love you baby? What we about to do
could make the whole earth move, I tell you my first move
Climb up in it slow, I ain't tryin to hurt you
Can you feel me baby? Should I keep it right there?
Is it still me baby? Take off your night wear
And lay your pretty body in the middle of your bed
As I place myself in the middle of your legs
Do you want me baby? Just let me know
like Aaliyah baby, and I'ma set you slow
Get freaky baby, can you handle that?
Dim the lights burn candles on your back, yeah
