

From The Word Go

Puffball

I'm just waiting for the green light,
it's been to quiet and it won't pick up.
After the signal I'll be out of sight
I'll be heading for the top.

Gonna ride those 4 wheels mama, put the pedal to the floor.
And hit the asphalt spinning like I've never done before.

From the word go

Can't wait to get out on the highway,
Just leave those people and town to rot.
I'm all prepared for my hey day.
And I will show them what I've got.

Gonna ride those 4 wheels mama, put the pedal to the floor.
And hit the asphalt spinning like I've never done before.

I'm getting the hell out of detention
I'm bursting out just like from jail
I have set the aim at the horizon.
And there's no way that I'm going stale.
I'm driving without any breaks.
Cuz at last I'm right on track.
I just know that I've got what it takes.
Forget that I'll ever go back.
