

## Another Day Another Friend

Puggy

No one knows if anybody cares  
Lost for words, we thought they're never there  
For everything we've lost we drink at any costs!  
You'll always find a fool somewhere

Well, to the end, another day another friend  
You've been gone so long they've lost your name  
Till the end, don't speak, never see and don't be heard  
So you know your life isn't meant to be the curse!

To anyone who's gone, years sing their songs  
For anyone who stays, they'll always make you pay  
You'll always find a crook somewhere

Well, to the end, another day another friend  
You've been gone so long they've lost your name  
Till the end, don't speak, never see and don't be heard  
So you know your life isn't meant to be the curse!

No one knows if anybody cares  
Lost for words, we thought they're never there  
For everything we've lost we drink at any costs!  
You'll always find a fool somewhere

Well, to the end, another day another friend  
You've been gone so long they've lost your name  
Till the end, don't speak, never see and don't be heard  
So you know your life isn't meant to be the curse!
