

Love That Feeling

Puggy

I never really had to be told
She only had to take off her clothes
She looked me in the eye and told me
Honey, you don't want to go home

You've got to love that feeling
You hold so dear
It's like coming out of the cold
You've got to love that feeling
When someone's near
some things you don't have to be told

And I know
And I know
And I know
And I know that you like it too

You can like it too
She can like it too
We can like it too

You're sweeter than the honey you gave me
That you gave
You always think of me when I'm lonely
All alone
You, your friend I hardly knew
Now know me harder
That is true

You've got to love that feeling
You hold so dear
It's like coming out of the cold
You've got to love that feeling
When someone's near
some things you don't have to be told

And I know
And I know
And I know
And I know that you like it too
