

Soul

Puggy

As the day will come to shore
and wash me up at your front door
never knew you'd take me back

Now it seems if all too clear
funny how this works my dear
only dawn could bring me back

No, no, no, no, no, no
now's the time to understand
no, no, no, no, no, no
and now I see

How we could be so young
feeling like we're so strong
always believe
you always knew your heart's song
sang it 'till the break of dawn
'till we could see
no, no, no, no, no, no
and now I see
how we're headlong rushing
you made us something to be
you're what I need

Not a day a month or year
without a lie, a trick I hear
never thought I'd make it back

No, no, no, no, no, no
now's the time to understand
no, no, no, no, no, no
and now I see

How we could be so young
feeling like we're so strong
always believe
you always knew your heart's song
sang it 'till the break of dawn
'till we could see
no, no, no, no, no, no
and now I see
how we're headlong rushing
you made us something to be
you're what I need x3

We're headlong rushing to dawn x3
We're headlong rushing

How we could be so young
feeling like we're so strong
always believe
you always knew your heart's song
sang it 'till the break of dawn
'till we could see

How we could be so young

feeling like we're so strong
always believe
you always knew your heart's song
sang it 'till the break of dawn
'till we could see
you're what I need
you're what I need
