

## The Long and the Short of It

Pulley

I've never walked a mile  
I've never seen you smile  
Just always seems that way when  
The silence never ends  
It means so much more to me...

As long as we can still believe anything  
I know who I am  
With no view from this room  
And no net to catch me at all

I'll be your only friend  
Stay with you till the end  
Into the night you go  
Left standing all alone  
It means so much more to me...

As long as we can still believe anything  
I know who I am  
With no view from this room  
And no net to catch me at all

I've washed my hands so I can  
I've tried being patient, it makes me feel better  
Imagine that we will again  
Make something of this  
A shadow is over me

As long as we can still believe  
I know who I am  
We can still believe...
