

## Write A Note If You Leave

Pulley

One journey begins as another one comes to an end  
For the last time  
The black & white photos tell stories of how it was then  
It's in my mind

I know you did the best  
You always came through  
I know you did your best  
I stare at the truth  
Stare at the truth

Try to remember the memories and look back through your eyes (Y  
our eyes)  
With painted-on smiles, it all played a role  
Peel back the layers, discover my soul

I know you did the best  
You always came through  
I know you did your best  
I stare at the truth  
Stare at the truth

I now can see all those things you showed me  
Through a lifetime of peaks and the deepest valleys  
It's hard to imagine my journey without  
I'll take what I've learned and I'll make you feel proud  
Please write a note if you leave  
Please write a note if you leave

I still can't believe it was just you and me on your last breath  
(Last breath)  
That moment in time I will never forget  
Your eyes now closed, forever at rest

I know you did the best  
You always came through  
I know you did your best  
I stare at the truth

I now can see all the things you've showed me  
Through a lifetime of peaks and the deepest valleys  
It's hard to imagine my journey without  
I'll take what I've learned and I'll make you feel proud  
Please write a note if you  
Please write a note if you
