

# Peace

Pulsedriver

Peace, can we hold it together  
Seems to me like we're having a problem  
Can't we try to talk it through, just me and you  
If we keep the faith in I know we can solve it  
If you see someone who has lost their way  
Seems to me like we're having a problem

Just reach out and help them  
No-one said we could solve every problem  
It's so special, lend me your helping hand  
Lets make the peace right, sisters and brothers  
Reach out a hand, touch each and everyone  
Caring to share, pennies from heaven
