

# Too Blind to See It

Pulsedriver

Honey, let me tell you something  
No man in the world  
[2x]

Don't wait for me  
'Cause I won't be there  
Not this time  
Boy can't you see  
That I am leavin' you behind

I've tried and I've tried just to hide it  
Hide the way I feel  
But that's not real  
I've tried and I've tried to deny it  
But you did me wrong  
So I'm movin', movin' on

Too blind to see it  
Too blind to see what you were doing  
[x3]  
Too blind, too blind  
Too blind to see it  
Too blind to see what you were doing

Too blind to see it  
Too blind to see what you were doing  
[x2]  
Too blind to see... [?x]

Too blind to s-  
Too blind  
[2x]  
Too blind to see what you were doing

Too blind to see it  
Too blind to see what you were doing  
Too blind, too blind  
Too blind to see it  
Too blind to see what you were doing  
[x2]  
I can't believe, oh baby I was

Honey, let me tell you something  
No man in the world

The only one  
I was your baby  
That's what I thought  
But you had your fun  
You tried to play me  
And now you're caught

I've tried and I've tried just to hide it  
Hide the way I feel  
But that's not real  
I've tried and I've tried to deny it  
But you did me wrong

So I'm movin', movin' on

Too blind to see it  
Too blind to see what you were doing  
Too blind, too blind  
Too blind to see it  
Too blind to see what you were doing

I can't believe, oh baby I was

Too blind to see it  
Too blind to see what you were doing  
Too blind, too blind  
Too blind to see it  
Too blind to see what you were doing  
[x2]  
I can't believe, oh baby I was
