

# Find Yourself

## Punchline

I'll lead or I'll follow  
I just wanna get there  
If anyone knows better  
Then please show us out of here  
I'm not saying I know  
But I see the next step  
If that's all we can get  
Then it's better than zip

This is no joke, man  
This is a fight  
Trying to find yourself  
In the right place at the right time  
When most of what I do  
Leaves me wondering if  
I'm capable of ever getting  
Out of this mess...

When did everybody get so good at everything  
I'm just over here trying to get keep my house clean  
I ebb and I flow, man  
It's up and it's down  
I'm wondering if this  
Is why people leave town

This is no joke, man  
This is a fight  
Trying to find yourself  
In the right place at the right time  
When most of what I do  
Leaves me wondering if  
I'm capable of ever getting  
Out of this mess

Consider this a warning  
You'll probably die  
Trying to find yourself  
In the right place at the right time  
So there's nothing more to do  
Than fall again on your face  
Knowing one of these days  
You're going to fall into place...

Searching for something  
Don't know what's out there  
Gonna keep looking until I find it  
Searching for something  
Don't know what's out there  
Gonna keep looking until I find it  
Searching for something  
Don't know what's out there  
Gonna keep looking until I find it  
Searching for something  
Don't know what's out there  
Gonna keep looking until I find it  
Searching for something  
Don't know what's out there  
Gonna keep looking until I find it
