

Over You

Punchline

Make no mistake - this isn't easy, easy to take
But I'm trying - for you (for you, I'm gonna try for)
You had a name, and now you're a pronoun
And further away from me (further away from me)

Nothing can get me over you
It's been the hardest thing to do
So turn on a light, give me a sign
I'll wait for your call, ohh
Nothing can get me over you

Now I'll have to wait, 'til work filters back life,
The telephone game, that you heard this, and you smiled
As you insist, the fact of the matter is I still exist
But now hope is dangerously close to my side

Nothing can get me over you
It's been the hardest thing to do
So turn on a light, give me a sign
I'll wait for your call, woahh
Nothing can get me over you

Nothing can get me over you
It's been the hardest thing to do
Yea - turn on a light, give me a sign
I'll wait for your call, woahh
Nothing can get me over you
Nothing can get me over you
So turn on a light, please give me a sign
And I'll wait for your call, oh, oh
Nothing can get me over you
Nothing can get me over you
