

## Something Happened In 1988

Punchline

I've got to where I'm going  
But here I am behind the wheel  
Cause in the air the night ain't over  
I can't shake the way it feels

Cause something happened in 1988  
Way it happy[?] when I was barely there  
Very different from the next [?]  
Sun stopped when I heard that sound  
I can't imagine what would happen if the pop died

You wanna act like it's a movie  
But something's there inside the course  
So when I say I got nothing on you  
You know that's right there in the words you heard

Cause something happened in 1988  
Way it happy[?] when I was barely there  
Very different from the next [?]  
Sun stopped when I heard that sound  
I can't imagine what would happen if the pop died

Dishonestly we're told who to be  
Through our subconscious by corporations  
Dishonestly we're told who to be  
Through our subconscious by corporations

Imagine if the pop died how would everybody get by  
Imagine if the pop died how would everybody get by  
Imagine if the pop died how would everybody get by  
Without the songs that have made us into who we are  
If the pop died how would everybody get by

Dishonestly we're told who to be  
Through our subconscious by corporations  
Dishonestly we're told who to be  
Through our subconscious by corporations

Cause something happened in 1988
