## Pungent Stench

Let me touch your skin  
With my icecold knife  
I love to see it red  
And you will love more  
Do it again & again  
Put it inside me  
I can't live without  
The knife tastes so good  
Let me feel icecold steel  
Please drive inside the knife  
I won't stop 'til you drop  
To the floor and cry for more  
It's enough to hard stuff  
Let me out before before I shout  
Shut your mouth hold on your breath  
Before my knife brings you death  
Now I want more  
I know what you need  
My knife will rip  
'Til you bleed  
I will never stop  
I greed for more  
I get now lust  
I want more gore
