

Best Revenge

PUP

I'm not sleeping well
I've been dragging through
This waking hell
But I swear, it's got nothing to do with you

The best revenge is living well
I've been living like shit, it's been fucking up my sleep
The best revenge is living well
Didn't even know what was right in front of me

I'm not sleeping well
My mind is tangled up around somebody else
My friends try and help
They keep telling me that

The best revenge is living well
I've been living like shit, it's been fucking up my sleep
The best revenge is living well
Didn't even know what was right in front of me

The best revenge is living well
I've been living like shit, I've been rolling in the deep
The best revenge is living well

I'm not sleeping well
I've been dragging through
This waking hell
But I swear, it's got nothing to do with you

The best revenge is living well
I've been living like shit, it's been fucking up my sleep
The best revenge is living well
Didn't even know what was right in front of me

The best revenge is living well
I've been living like shit, I've been rolling in the deep
The best revenge is living well
Didn't even know you were right in front of me
