

## Falling Outta Love

PUP

I think I'm falling outta love again  
And I don't know if you can handle it  
I think I'm starting to get used to this  
Like nothing is enough

It feels like I'm being torn apart  
Like every little thing has gotten hard  
I couldn't even drive the fucking car  
I was shaking way too much

There's something off inside of me  
You know how this ends  
'Cause I never had that certainty at all

I think I'm falling outta love again  
Falling outta love again  
And I don't know if you can handle it  
And I don't know if you can handle it  
I think I'm starting to get used to this  
I think I'm starting to get used to this  
I think I'm starting to get used to this  
Nothing is enough

Don't know if I can face it all  
Don't know how the hell  
I was supposed to stand you when  
I couldn't even stand myself

I think I'm falling outta love again  
And I don't know if you can handle it  
I think I'm starting to get used to this  
Nothing is enough
