

## No Hope

PUP

Staring into the void now  
You're going down with the ship  
You're taking me with you  
I don't even resist, it's just what it is

I don't need hope  
It's killing me  
It's burned a hole  
It's buried me

Sitting up in the bleachers  
I'm gonna learn to regret it  
I wouldn't fall for a guy like me either  
Trust me, I get it

I don't need hope  
It's killing me  
It's burned a hole  
It's torn right through

My whole body  
And it makes me sick  
But it's what you need
