

Relentless

PUP

It's always the same shit
Follow the cracks in the pavement
Leading back to the constant collapse, it shakes me
Right place at the wrong time
Right joke with a bad punchline
There's nothing you need to analyze
We're just livin' la vida loca, baby

Fuck all the dread
It's endless
You can't kill it like you wanted
And when you try and get ahead
You're relentless
You can never admit how badly you want it

It's always the same shit
Follow the kids to the basement
Let me numb it first
It's like I'm trying to escape it
But I swear to God, just turn me down
I can fake it better than the best now
Just start the song
It doesn't matter if I can play it, baby

Fuck all the dread
It's endless
You can't kill it like you wanted
And when you try and get ahead
You're relentless
You can never admit how badly you want it

You've taken it all
Let everything go stale
And when you hit that wall
It was like you were born to fail

Fuck all the dread
It's endless
Fuck all the dread
It's relentless

Fuck all the dread, it's endless
It's endless, it's endless
And when you try and get ahead, you're relentless
You'll never admit how badly you want it
