PUP

Took a path to the top of the mountain  
You walk forever just to meet me at the reservoir  
Outta luck, outta money  
Take your clothes off, meet me at the reservoir  
Meet me at the reservoir!  
Meet me at the reservoir!

I guess you live and you learn  
I guess you'll get what you deserve

You're on your own  
I'm letting go at the reservoir  
You're sinking like a stone  
We had it all and it fell apart

You only want it when you're bored with the quarry  
I only want it when I'm wasted at the reservoir  
Outta touch, outta loving  
The engines running and I'm wasted at the reservoir

My lungs are killing me, I didn't even get high  
Forget longevity, we're just tryna get by  
It isn't apathy, I just don't care if I die  
My lungs are killing me, I didn't even get high

You're on your own  
I'm letting go at the reservoir  
You're sinking like a stone  
We had it all and it fell apart  
What did you expect?  
At the reservoir  
You're sinking like a stone  
I'm letting go!

It's never pleasure, it's always work

Meet me at the reservoir!  
Meet me at the reservoir!

I guess you lived and you learned  
I guess you'll get what you deserve!

You're on your own  
I'm letting go at the reservoir  
You're sinking like a stone  
We had it all and it fell apart  
What did you expect?  
At the reservoir  
You're sinking like a stone  
I'm letting go, I will stay afloat!
