Hallucinate

Chorus:

Because I'm hallucinating  
in the BOG Puppet dreams  
Coming up everywhere I see  
All aboard no over flowkeep it going  
and watch it glowwe've only just begun  
this boat amounts to what we've won  
it's what we've cooked  
it what we've earned  
it what we took through all the turns  
fortunate for all my figures  
who helped this picture be delivered  
to get you on that goosepimpin ride an make you  
shiver...

Been around when the bounds used to bounce upside  
kid a kickers kapow to allow grounds  
to expand more  
explore new territories  
mad muppet galore  
new visions in store  
premonitions of ever wishing and spreading the creature  
mission  
to keep it wizzin' through the neighborhoods  
coming in them and dropping ooze  
rolling up in a caboose dropping them tunes  
creatures shocking hopin' them rooms

Snuggles

what you eat is what you are  
and where you bleed is where your scar  
let me put this needle to the record  
like we taking it too far  
just like alice popped a blue pill  
we got ourselves some new thrills  
be pushing for lyrical overdose upon this fools hill  
its crew overkill, what part should come next?  
what-s the story in this puppet hallucinations context?  
whose behind the decks of this magic mountain trek?  
whose behind the flex of this never ending mountain  
quest?  
we got strawberry field and blueberry hills

white rabbit late for a v.i.p date with the tooth-fairy  
my credo indeedo gonna get you like a placebo  
under the sea you-ll find us with nemo!

Wizard:

Hallucination?

Aw, stop it  
that's my favourite topic  
it's like hawaiian tropic  
sand in my pocket as i took miss piggy to market  
i let her ride the rocket

if you brought your own creature funk, go head, light  
it, spark it  
cause if you got it you gotta flaunt it but when i  
download a brownload  
baby it's still got flies on it  
to be honest  
i know i flow with the best  
nevertheless never let it go to my head  
now let me get through to you  
let me introduce you to  
your hallucination baby  
I will be seducing you,  
i will reproduce with you  
I'll be everywhere that you look,  
figga there ain't nothing that you can do  
who can prove that i'm not really there spookin you?
