

# War Is Over

Puracane

And you can't wait to get away  
'Cause you don't need me now  
And there's no grace in what you say  
I don't believe you now

I don't even know her  
You could lie in the face or the look  
War is over, I recover  
But you won't be there to see me

And I let go who what I know  
'Cause it can free me now  
I used to wait, I used to pray  
I'm almost sorry that you suffered  
Windows opened I'd be scary

Now my feet don't touch the ground  
Do you believe me now  
There you can see me now  
Oh, what do you need

And there's no place and I can't wait  
'Cause I don't need you now  
'Cause I let go from all I know  
'Cause it can free me now

I don't even know her  
You could lie in the face or the look  
War is over, I recover

Now my feet don't touch the ground  
Do you believe me now  
There you can see me now  
Oh, what do you need  
War is over, I recover  
I don't even need to fight  
Do you believe me now  
There you can see me now
