

Warzone

Puracane

I can feel it on the inside
Even now
Would you like to forget it?

I could see you at the window
Upside down and break
I was stinging on the inside
Even now
But you still don't get it

I was screaming underwater
"All our lives should end"

You can't watch again
So you broke your camera
Throw into the sea

I was stinging on the inside
Even now
But you still don't get it

I was screaming underwater
"All our lives should end"

All played a part
Closed the door
My silence
All traitors are
I'm a slut, you're a kid

You can't watch again
So you broke your camera
Throw into the sea

Dirty piece of meat
...
All itself is sanity
All itself is sanity
All itself and everything

I was biting at my fingers
'til they bled
But I'm still not ready
Could you help me take the skin off
with your teeth and nails?

I was stinging on the inside
Even now
But you still don't get it

I was screaming underwater
"All our lives should end"

All played a part
Closed the doors
My silence
All traitors are

I'm a slut, you're a kid
