

Country Song

Pure Prairie League

I wanted a mountain and you brought one to me
I wanted a mountain and you made one mine
I wanted a mountain... now I must learn to climb... and
it's that
Same old... country song... bringin' you back to me

I wanted the sunlight and you let it shine
I wanted the sunlight and you brought it to me
I wanted the sunlight... now I must learn to see... and
it's that
Same old... country song... bringin' you back to me

From the highest mountain... to the lowest valley
I'm up on a cloud now... down... down on my knees... and
it's that
Same old... country song... bringin' you back to me

I wanted a river and you let one flow
I wanted a river and you brought one to me
I wanted a river... now I must find the sea... and it's
that
Same old... country song... bringin' you back to me...
it's that
Same old... country song... bringin' you back to me...
it's that
Same old... country song... bringin' you back to me
