

Gettin' Over You

Pure Prairie League

You forgot to shut the door when you left
I knew you were gone when I felt the draft
There was no more smell of perfume lingering around
And nobody here to tell me to turn my guitar down

Gettin' over you gettin' over me
Getting used to being your old used-to-be
My broken heart is breaking free from your memory
I'm gettin' over you gettin' over me

I wondered if I could get by on my own
I found out I'd be better off alone
Cause without you here shoutin' in my ear
I could do just what I like
Lay around on the couch all day
And go out on the town all night

Gettin' over you gettin' over me
Getting used to being your old used-to-be
My broken heart is breaking free from your memory
I'm gettin' over you gettin' over me

Gettin' over you gettin' over me
Getting used to being your old used-to-be
My broken heart is breaking free from your memory
I'm gettin' over you gettin' over me
I'm gettin' over you gettin' over me
Gettin' over you gettin' over me
