

## One Of Those Things

Pure Prairie League

I keep dialin' up you number but the phone just rings  
I keep drivin' by your house but you're never there  
I guess it must be one of those things  
It can't be that you don't care

I guess you must be a busy girl  
Is this what you meant when you said you'd go far  
Well, as for me, I got all the time in the world  
To sit and wonder where you are

I keep dialin' up you number but the phone just rings  
I keep drivin' by your house but you're never there  
I guess it must be one of those things  
It can't be that you don't care

Well I've come to think you must be out of town  
That you hopped on a bus and sailed off into the blue  
Leavin' me to just hang around  
And lately it seems all I do

I keep dialin' up you number but the phone just rings  
I keep drivin' by your house but you're never there  
I guess it must be one of those things  
It can't be that you don't care
