

Tell Me One More Time

Pure Prairie League

Last night I lay here beside you in the dark
Got this lucky feeling in my heart
I counted all my dreams and a blessing or two
They were right beside me all right there in you

'Cause you've given me what I never had
And it feels so good... I never knew
Let me hear it again let me hear it from you

Tell me one more time you love me
Tell me one more time it's all I need to know
Tell me one more time you love me
Say it again... baby say it again

It used to hurt so much to live alone every day
Trying to build a dream I'd already thrown away
Life turned around and sent you to me
Like the sun through the clouds shining down on me

Tell me one more time you love me
Tell me one more time it's all I need to know
Tell me one more time you love me
Say it again... baby say it again

You got me through all those rainy days
And it feels so good... I never knew
Let me hear it again I need to hear it from you

Tell me one more time you love me
Tell me one more time it's all I need to know
Tell me one more time you love me
Say it again... baby say it again

Tell me one more time you love me
Tell me one more time it's all I need to know
Tell me one more time you love me
Say it again... baby say it again
