

Maelstrom

Pure Reason Revolution

Lay here, sleep tight
Shield up airflow high
It's written in the scars
And it's late & cold as your hands let go, my love

It carved the way to ruin, dominium, dominium
It carved the way to ruin
It carved the way to ruin, dominium, dominium
It carved the way to ruin

And if we see a rise in the malice mourn
It's then we've gone too far
And if we see a light in the maelstrom
Our death will be defied

Wait here hold tight
Go deep, go fight
It's driven in the heart
It's the weight of gold but I must let go, my love
Could it be

It carved the way to ruin, dominium, dominium
It carved the way to ruin
It carved the way to ruin, dominium, dominium
It carved the way to ruin
And if we see a rise in the malice mourn
It's then we've gone too far
And if we see a light in the maelstrom
Our death will be defied

Born such a peaceful soul
It's eternal, it's all that's come back
Can I retake control my love?

You called and I beat you back
It's the tone, it's the honest & bad
It's celestial code gone bad

It carved the way
It carved the way
It carved the way to ruin
It carved the way
It carved the way
It carved the way to ruin

It carved the way to ruin, dominium, dominium
It carved the way to ruin
It carved the way to ruin, dominium, dominium
It carved the way to ruin
And breathe still my love, 'cause I need you
It's fated our love & I need you
And you came, when the blood inside her turned
Keep heaven here beside her and safe
When the maelstrom turns
And now we lay beside her we're safe

All that you breathe intensified

In the machine you came to life
Then you were born, your hand in mine
When the maelstrom turned
Now the maelstrom turns

And it could be that you're not hear
Intensive care, intensive fear
But it was there I held you dear
When the maelstrom turned
So calm as I leave
Now the maelstrom turns
