

Silent Genesis

Pure Reason Revolution

[Instrumental Intro]

[Verse 1]

There's faith here but lost devotion
Don't touch or cry, don't feel
Thunder dies, heart beating
You take it with no emotion
You're breathless, cold & tight, there's a vacancy

[Chorus]

Cloud ahead
Broken meaning
Climb the thread
Under breeding

[Verse 2]

Dead where we're meant to be
Come wind into her, bind in two
You rattled hell but so heavenly
No harm, we're numb

[Chorus 2]

Cloud ahead
Broken meaning
Climb the thread
Under breeding
Watch it all
Blind the screaming

Darkened head
Lovers grieving

[Instrumental]

[Verse 3]

No faith here, just words unspoken
Don't play devout for me & don't lie, cut deeper
You lay here in calm explosion
A careless cold device, It's a veiled conceit

It's dead where we're meant be
Come wind into her, bind in two
You're ashen still, but you stay with me
No harm, we're numb
No harm, we're numb

[Outro]

Cloud ahead
Broken meaning
Climb the thread
Under breeding
Watch it all
Blind the screaming
Darkened head
Lovers grieving
