

Victorious Cupid

Pure Reason Revolution

Killed, crossed, half dead, in love (4x)
She preys the weakest
Spill love, love, kill real love, Love

Killed, crossed, half dead, still in love...
He takes the bleakest
Spill love
Love

The kills lost? Our hearts shared, they stone
She prays with the wicked
Did you feel loved, really loved? Ever loved? (2x)

Alone? God burns and rise beloved
Credence never filled us up...

Above burns, emotion rises? Tithes left with hands in fires
Peel Gods, peel their tongues
Lust burnt, a love despises, hands cleansed but lies that paint dead
love...

God's creatures rattle the cage, dull blisters ravage her face
God's creatures rattle the cage
Cull, love, love, Loath

Sin-scorched, the calf's bled, enough?
I never listened
Kiss-my-soul-love
Low

But still choked on life's wasted woes, we splay the whickers
Kiss my soul loathe entice the lust, spit the lungs (2x)

Love? God burns and rise beloved!
Credence never filled us up

Above burns, emotion rises? Tithes left with hands in fires
Peel Gods, peel their tongues
Lust burnt, a love despises, hands cleansed but lies that paint dead
love...

And if we die like this right now, I'd say that's under running
And if we die like this right now, God brace our hearts
And if we die like this right now, I'd say that's under loving
And if we die like this right now, would love stain the heart
And if we die like this right now, I'd say that's under running
And if we die like this right now!
